

MIG Environmental Policy

Above, below and everything in between

MIG ENVIRONMENTAL POLICY

MIG Management has developed the Environmental Policy which governs the Aspects and Impacts of MIG to the environment. Each of us at MIG has a moral obligation to look after ourselves, clients/stakeholders and the environment.

As the very minimum we will comply with all relevant environmental legislation and approved codes of practice. In locations where we are not directly responsible for plant and equipment we will liaise with our clients to consider how best to improve the environmental performance of our operations.

Environmental Management In The Workplace

MIG have set clear objectives to measure and maintain our environmental performance by:

- Monitoring carbon emissions through tracking systems on vehicles
- meeting compliance obligations
- Recycling and reusing waste products created through MIG works
- Reducing excessive idle times in the field
- Providing necessary spill and containment equipment for workplace

- Storing hazardous chemicals in a safe manner
- Providing the necessary information and training to crews in order to implement responsible environmental practices.
- Commitment to the Prevention of Pollution
- Commitment to the protection of the environment
